

Do you have an experience with building trustworthiness?

BUILDING TRUST ESSAY CONTEST

Heartfelt stories capture the essence of our experiences in health care as students, clinicians, or as patients.

This year, we'd like to hear your stories about engaging in meaningful dialogue to enhance patient care, specifically with someone holding different views than your own.

The Building Trust Essay Contest is open to students of health professions in the United States.

Submission Deadline: March 22, 2024
